Firstbit solutions.

Internships

- **Frontend web developer**

Company: Classroom tech

Duration Date : 1/11/2023 to 1/12/2023

The primary goal of this task is to design and implement the Frontend of an LMS website that provides an intuitive and responsive interface for both students and instructors. The LMS website will allow users to register for courses, access course material. using modern web technologies like HTML,CSS, JavaScript and React framework to ensure a seamless user experience.

After doing the first project task I got a lot of confidence that I know how to make a contact form and learned a lot more.

- **Frontend developer**

Company : Ignite intern

Duration Date : 10/05/2024 to 10/06/2024

In this task is to design and implement the Frontend YouTube Clone application website that provides an intuitive and responsive interface for viewers. using modern web technologies like HTML,CSS, JavaScript and React framework to ensure a seamless user experience.
